Title: Appointment – Tenure Track	Page	1	of	1
Date Adopted: 1/3/12	Date(s) Revised:			
 _____ President	 _____ Date			

POLICY STATEMENT

Fulltime, tenure track faculty who receive a letter of appointment will be removed from the tenure track and will not become eligible for tenure. Faculty who receive a letter of appointment for employment will follow the administrative policy consistent with their appointment. A letter of appointment will not affect a faculty member's rank. New and existing faculty will be eligible for advancement in faculty rank as described in the faculty handbook.

In the event that a faculty member returns to a standard full time faculty contract after being removed from a letter of appointment, the faculty member may or may not be offered the possibility of returning to the tenure track, but will still be eligible for advancement in faculty rank as described in the faculty handbook.
