

National University of Health Sciences General Policies

Title: OSHA Inspection	Page	1	of	1
Date Adopted: 12/7/92	Date(s) Revised:			
 President		<u>7-30-09</u>		Date

POLICY STATEMENT

It is a policy of The National University of Health Sciences (NUHS) to be in compliance with the OSHA Inspection Policy as listed below:

1. A request by an OSHA inspector to access the premises of any part of NUHS must be referred to an appropriate supervisor who must be at the level of Dean or above.
2. If an OSHA inspector asks to investigate a specific employee complaint, the University will comply with this process as long as the inspector agrees to confine his/her investigation to the matter(s) of the specific employee complaint only.
3. In the event that an OSHA inspector requests access to the premises to do a "wall to wall" inspection, the matter will be referred to one of the Vice Presidents who shall demand a warrant unless legal counsel instructs otherwise.
4. A request by an OSHA inspector for access to the premises to investigate a fatality must be handled by a Vice President in a manner as described in number two above.
5. In all situations, warrant or no warrant, the OSHA inspector shall be clearly advised that his/her entry upon the employer's premises is being permitted "under protest."
