

Doctor of Chiropractic – Phase II Flexible Track Curriculum – Florida

Phase II, representing the clinical sciences portion of the curriculum, consists of 4 terms, totaling 111.0 hours of credit. The Phase II Flexible (“Flex”) Track option will give the student the opportunity to complete Phase II course requirements at a pace that would be consistent with the individual’s goals and learning style. Designed with the student in mind, Phase II Flex Track options deliver the Phase II curriculum in 4, 5 or 6 terms. The total credit load of 111.0 hours will be maintained regardless of the Flex Track option selected. In addition, all curricular requirements relating to course corequisites and prerequisites will be satisfied.

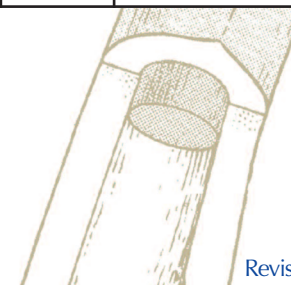

Choosing a Flex Track option should be weighed carefully. It is recommended that the student seek the counsel of their academic adviser prior to making a final decision. Selecting the 5-term or 6-term option will obligate the student to remain in the designated track until the completion of Phase II.
