

The National University of Health Sciences Evidence Based Practice One-hour Webinars, Lectures and Sessions 2012 Faculty Development OWLS

The theme of the 2012 Faculty Development OWLS is Developing Evidence for CAM. Sub-topics will alternate between developing evidence for CAM through electives and course content and through research and scholarly activity. The goal of the OWLS sessions is to increase the translation of knowledge from research, experience and evidence into professional practice and education. NUHS faculty as well as invited, outside speakers will host the OWLS, provide perspectives on the research and publication process from personal and professional standpoints, demonstrate how "yes, you can do it!" and inspire the NUHS community to translate knowledge into practice.

The Faculty Development OWLS are scheduled at noon (Central time) in the Lombard Clinic building or via webinar. Watch for event announcements and details on the NUHS website. For webinar directions, or to be added to the OWLS email list, contact [Dr. Barbara Sullivan](#).

Supported by NIH [NCCAM](#) R25 AT002872. CE and Scholarly Activity credits for faculty and staff through [The National University of Health Sciences Lincoln College of Postprofessional, Graduate and Continuing Education](#).

Date	Topic	Presenter
Feb. 13 Monday	12:00 pm Recap of the Winter Workshop Developing Evidence for CAM through Electives, Research & Scholarly Activity 12:15 – 1:00 pm Faculty discussion and work session	Barbara M. Sullivan, PhD, Asst. Prof., Research, Program Manager, Evidence Based Practice.
Feb. 27 Monday	12:00 pm Developing Evidence for CAM through Research: Conducting Research Projects at NUHS Faculty panel discussion about doing research – educational, basic, clinical, observational, short reports, case studies to pilot studies and grant supported RCTs	Jennifer Dexheimer, Clinical Research Coordinator, Dept. of Research NUHS
March 9 Friday	12:00 pm Developing Evidence for CAM through Electives and Course Content Developing and Implementing Electives – how do we structure and mentor courses like writing case studies, letters to the editor, and independent research studies? 12:15 – 1:00 pm Faculty discussion and work session	Brian Anderson, DC, MPH, CCN, Instructor, Clinical Sciences
March 30 Friday	12:00 pm Developing Evidence for CAM through Research: How to Use Research to Improve your Clinical Competency Why a technique should be backed by peer-reviewed publications. Why you should use a technique that has clinical trials. Why clinical trials are important. Is one technique more important than another?	Arlan W. Fuhr, DC CEO and Co-Founder of Activator Methods International, Ltd. ; President, National Institute of Chiropractic Research
April 13 Friday	12:00 pm Developing Evidence of CAM through Electives: Developing an Elective Emphasizing the Professional Application of EBP – CAM and Allopathic Care Efficacy	Mabel Chang, DC, MPH, Asst. Prof., Clinical Sciences and Rudy N. Heiser, MS, DC, DACBR, Asst. Prof., Clinical Practice
May 11 Friday	12:00 pm Developing Evidence for CAM through Research: Research Proposals and Projects: the Review Process	Judith D. Pocius, MS, Research Coordinator, Dept. of Research NUHS
June 8 Friday	12:00 pm Developing Evidence for CAM through Electives and Course Content: Developing electives and EBP skill building assignments and activities to enhance courses – opportunities, challenges and implementation 12:15 – 1:00 pm Faculty discussion and work session	Robert C. Shiel, PhD, Professor, Chair, Clinical Sciences
June 25 Monday	12:00 pm Developing Evidence for CAM through Research and Scholarly Activity: Research@NUHS – Engaging in research and scholarly activity at NUHS.	Robert Appleyard, PhD, Professor, Chair, Basic Sciences
July 13 Friday	12:00 pm Developing Evidence for CAM through Electives and Course Content - EBP skill building assignments	Daniel L. Richardson, MSc, PhD, DAANC, Professor, Clinical Sciences
July 27 Monday	12:00 pm Developing Evidence for CAM through Research and Scholarly Activity Projects and support for new investigators and collaborators	Lynn Zoufal, MBA, Bursar, Grants Administrator
Aug. 10 Friday	12:00 pm Developing Evidence for CAM through Electives and Course Content 12:20 Faculty discussion and work session	Barbara M. Sullivan, PhD, Asst Prof, EBP Program Manager
