POLICY STATEMENT

The National University of Health Sciences (NUHS) and its successor organization, if any, will accept donations for the purpose of establishing “Pass Through Scholarships.” These are scholarships being funded by individuals or organizations, but which are not to be designated as “Named Scholarships,” or placed into either the NCC Scholarship Fund or the NUHS Scholarship Fund.

Any donation received for the purpose of forming a scholarship, and not designated to either the NCC or NUHS Scholarships funds, or any other named scholarship fund, will be designated as a “Pass Through Scholarship.” Such scholarships may be named after the donating agency or individual if requested.

Pass through scholarships will be awarded, when possible, during the trimester the donation was received.

The proceeds shall be distributed in the following manner:

- 100% of the donation shall be distributed as scholarships to those recipients who are so designated by the Scholarship Committee of the University, in accordance with the stipulations of the scholarship donor.
- In the event there is no applicant and no award made, the money will be held and made available in the next trimester.
