| English                 | 6 semester    | ENGLISH 125 Writing and Academic Inquiry  
|                         | hours         | ENGLISH 225 Academic Argumentation  
|                         |               | Other English, communications, literature, or writing courses.                                                                                                                                                        |
| Biology                 | 2 courses     | BIOLOGY 171 Intro Biology: Ecology and Evolution  
|                         |               | BIOLOGY 172 Intro Biology: Molecular, Cellular, and Developmental  
|                         |               | BIOLOGY 173 Introductory Biology Laboratory  
|                         |               | Other Biology courses including anatomy & physiology, botany, cell biology, genetics, microbiology, neurobiology, zoology.                                                                                           |
| Chemistry               | 2 courses     | CHEM 125 & 126 General Chemistry Lab I & II  
| General or Inorganic    |               | CHEM 130 General Chemistry: Macroscopic Investigations & Reaction Principles                                                                                                                                         |
| Chemistry               | 2 courses     | CHEM 210 Structure and Reactivity I  
| Organic or Biochemistry |               | CHEM 211 Investigations in Chemistry  
|                         |               | CHEM 215 Structure and Reactivity II  
|                         |               | CHEM 216 Synthesis and Characterization of Organic Compounds  
|                         |               | CHEM 230 Physical Chemical Principles and Applications                                                                                                                                                    |
| Physics                 | 2 courses     | PHYSICS 135 Physics for the Life Sciences I  
|                         |               | PHYSICS 136 Life Sciences Lab I  
|                         |               | PHYSICS 235 Physics for Life Sciences II  
|                         |               | PHYSICS 236 Life Sciences Lab II  
|                         |               | And corresponding labs  
|                         |               | Statistics, exercise physiology, biomechanics, or kinesiology may be accepted for one Physics course.                                                                                                          |
| Psychology              | 3 semester    | PSYCH 111 Introduction to Psychology  
|                         | hours         | Other Psychology courses including abnormal, child, community, developmental, experimental, educational, perceptual.                                                                                                    |
| Social Science/Humanities| 15 semester   | Social Science/Humanities courses including those in economics, education, history, political science, psychology, anthropology, art/drama/music/film history or appreciation, languages, literature, English, logic, philosophy, and religion. |

Science prerequisites are listed as guidelines only, and may vary. Students should contact the Office of Admissions to determine the exact science coursework required. All non-science credit hour requirements are as listed.

Each course must transfer at the baccalaureate level with a minimum 2.0 on a 4.0 scale. Students must have earned a baccalaureate degree with a minimum GPA of 3.00 on a 4.0 scale. However, those students with a cumulative GPA between 2.75-2.99 may be considered for admissions under an Alternative Admissions Track (AATP). Please refer to the National University of Health Sciences Bulletin for additional admission requirements.

Suggested courses obtained from University of Michigan 2018 catalog. This document is intended to assist with academic planning and does not constitute a contract. It is the responsibility of the student to keep abreast of changes in course offerings and program requirements.
