

**THE LONG-TERM CLINICAL OUTCOMES OF A NOVEL THERAPEUTIC MODALITY  
CONSISTING OF VIBRATION THERAPY PLUS TRACTION IN COMBINATION WITH  
MULTIDIRECTIONAL UNWEIGHTED TREADMILL GAIT TRAINING FOR TREATING  
CHRONIC LOW BACK PAIN**

Principal Investigator: Gianni Maddalozzo, Ph.D.

Faculty Sponsor: Kristine Aikenhead, D.C.

Patients with chronic low back pain completed a novel therapeutic protocol at the Illinois Back Institute. The purpose of this survey project is to determine the long-term (12-48 months) therapeutic outcomes of this protocol.

Funding: Illinois Back Institute
