

STUDENT AWARENESS OF NUHS RESEARCH

Principal Investigator: Gregory Cramer, D.C., Ph.D.

Dissemination of research information has been found to not only increase the number of students who consider a career in research, but also to enhance the educational experience of those who become aware of, and understand ongoing research in their field of endeavor. This study is designed to assess an effort by the NUHS Research Department to increase the awareness of NUHS research among NUHS students.

Funding: Internal
