|--------------------------------------|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Biology                              | 2 courses    | <i>BIO 111 Biology I</i><br><i>BIO 112 Biology II</i><br><i>BIO 110 Biology I Laboratory</i><br><i>BIO 113 Biology II Laboratory</i><br>Other Biology courses including anatomy & physiology, botany, cell biology, genetics, microbiology, neurobiology, zoology. |
| Chemistry<br>General or Inorganic    | 2 courses    | <i>CHE 141 General Chemistry I</i><br><i>CHE 142 General Chemistry II</i><br>And corresponding labs                                                                                                                                                                |
| Chemistry<br>Organic or Biochemistry | 2 courses    | <i>CHE 303 Organic Chemistry I</i><br><i>CHE 304 Organic Chemistry II</i><br><i>CHE 313 Organic Chemistry Lab I</i><br><i>CHE 314 Organic Chemistry Lab II</i>                                                                                                     |
| Physics                              | 2 courses    | <i>PHY 151 General Physics I</i><br><i>PHY 152 General Physics II</i><br>And corresponding labs<br>Statistics, exercise physiology, biomechanics, or kinesiology may be accepted for <i>one</i> Physics course.                                                    |
|                                      |              |                                                                                                                                                                                                                                                                    |

Science prerequisites are listed as guidelines only and may vary. Students should contact the Office of Admissions to determine the exact science coursework required.

Each course must transfer at the baccalaureate level with a minimum 2.0 on a 4.0 scale. Students must have earned a baccalaureate degree with a minimum GPA of 3.00 on a 4.0 scale. However, those students with a cumulative GPA between 2.75-2.99 may be considered for admissions under an Alternative Admissions Track (AATP). Please refer to the National University of Health Sciences Bulletin for additional admission requirements.

Suggested courses obtained from Mississippi College 2025-2026 course descriptions. This document is intended to assist with academic planning and does not constitute a contract. It is the responsibility of the student to keep abreast of changes in course offerings and program requirements.
