|--------------------------------------|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Biology                              | 2 courses    | <i>BIO 171 Unity of Life<br/>BIO 172 Diversity of Life<br/>And corresponding labs<br/>Other Biology courses including anatomy &amp; physiology, botany, cell biology, genetics, microbiology, neurobiology, zoology.</i>          |
| Chemistry<br>General or Inorganic    | 2 courses    | <i>CHEM 121 General Chemistry I<br/>CHEM 122 General Chemistry II<br/>And corresponding labs</i>                                                                                                                                  |
| Chemistry<br>Organic or Biochemistry | 2 courses    | <i>CHEM 221 Organic Chemistry I<br/>CHEM 222 Organic Chemistry II<br/>And corresponding labs</i>                                                                                                                                  |
| Physics                              | 2 courses    | <i>PHYS 111 Essentials of Physics<br/>PHYS 112 Essentials of Physics<br/>PHYS 112L Essentials of Physics Laboratory<br/>Statistics, exercise physiology, biomechanics, or kinesiology may be accepted for one Physics course.</i> |
|                                      |              |                                                                                                                                                                                                                                   |
|                                      |              |                                                                                                                                                                                                                                   |

Science prerequisites are listed as guidelines only and may vary. Students should contact the Office of Admissions to determine the exact science coursework required.

Each course must transfer at the baccalaureate level with a minimum 2.0 on a 4.0 scale. Students must have earned a baccalaureate degree with a minimum GPA of 3.00 on a 4.0 scale. However, those students with a cumulative GPA between 2.75-2.99 may be considered for admissions under an Alternative Admissions Track (AATP). Please refer to the National University of Health Sciences Bulletin for additional admission requirements.

Suggested courses obtained from Valparaiso University 2025-2026 course descriptions. This document is intended to assist with academic planning and does not constitute a contract. It is the responsibility of the student to keep abreast of changes in course offerings and program requirements.
